GITHUB: <https://github.com/Bhavesh9461> | PORTFOLIO: <https://www.bhaveshdev.pro>

## • Technical Skills

**Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Three.js

**Backend & Database:** Node.js, Prisma ORM, MongoDB, PostgreSQL, Supabase, MySQL

**Tools & Platforms:** Git, Clerk Authentication, REST APIs, Realtime Systems, AI Integrations

**Core Expertise:** Full Stack Development, SaaS Architecture, Authentication Systems, Database Design, UI/UX Development

## • Education

**Silver Oak University, Ahmedabad**

**2022 – 2026**

Bachelor of Technology in Computer Engineering

CGPA: 7.68/10

**Govt. Senior Secondary School, Rajasthan**

**2019 – 2020**

Class XII (AISSCE)

93.5%

**Tulsi Public School, Rajasthan**

**2017 – 2018**

Class X (AISSE)

84%

## • Projects

### Tiffin Management SaaS

- Built a production-level SaaS platform featuring role-based dashboards, subscription management, real-time delivery tracking, GPS integration, admin analytics, payment workflows, and scalable backend architecture using Next.js 15, TypeScript, Prisma, Supabase PostgreSQL, Clerk Authentication, and Tailwind CSS.

### LeadForge AI

- Developed an AI-powered lead generation and outreach platform with AI lead scoring, CRM workflows, campaign management, analytics dashboards, email automation, and intelligent business insights using Next.js, Prisma, Supabase, OpenRouter AI, and Resend API.

### Thundercoil Chat Application

- Created a modern real-time chat application with secure authentication, live messaging, realtime communication workflows, responsive user interface, and optimized backend architecture.

## **Trexxa AI Image Generator**

- Designed and developed an AI image generation platform enabling dynamic AI-generated images with modern responsive UI/UX, advanced API integrations, and optimized frontend performance.

## **• Internships**

### **CodeSoft – Full Stack Developer Intern | 1 Month**

- Worked on frontend and backend development projects using modern JavaScript technologies, APIs, database integrations, and responsive UI development.

### **CodeSoft – Full Stack Developer Intern | 1 Month**

- Developed responsive web applications while improving understanding of scalable architectures, authentication systems, backend workflows, and modern development practices.

## **• Achievements**

- Built multiple production-level SaaS and AI-powered applications using modern full stack technologies.
- Strong academic performance with 93.5% in Class XII and continuous focus on scalable software engineering.
- Experienced in building scalable real-time systems, authentication-driven applications, and premium UI/UX interfaces.
